

Capturing Yesterday, Celebrating Today, Creating Tomorrow in Redmond's Historic Core - 2014-2015 Planning Process

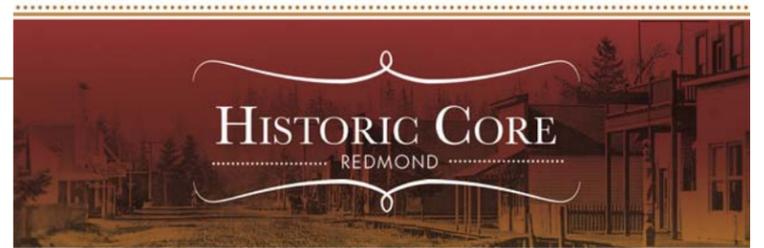

Redmond's story began in the late 1800's though we know that the story of this place started many 1,000's of years prior. The Historic Core started developing with the arrival of the Seattle, Lake Shore and Eastern Railway, bringing settlers, loggers, miners, fisher folk, and farmers to the Squak/Sammamish Valley and to the settlement called Melrose. That spirit of adventure and pioneering continues today and the Historic Core Plan hopes to foster a great place for the community to create tomorrow.

Elements of the Historic Core Plan

- Historic Core brand
- Architectural/Design standards
- Vegetation program
- Common streetscape theme including:
 - ◊ Wayfinding, monumentation, art and interpretation plan
 - ◊ Street lighting recommendations
 - ◊ Seating standards and other streetscape elements
- Connectivity plan including additions to the pedestrian and bicycle network
- Two-year event plan
- Marketing program

Additional information and community engagement activity underway at www.redmond.gov/history.
