

Regional Stormwater Facilities Map

Legend

- Regional Stormwater Facilities
- City Limits
- Sub-Basin CFC Areas
- Lake/Rivers
- Watersheds
- Parcels
- ROW

Notes:

1. City staff has identified proposed capital improvement projects that provide stormwater management for portions of the City. Of those proposed projects, many are identified as "regional stormwater facilities" that developers may have the option (or be required) to pay a fee to the City so that the City's proposed project will meet regulatory requirements for stormwater improvements that would otherwise be required of the proposed development. The Stormwater Technical Notebook provides more information about this program (<http://redmond.gov/insidecityhall/publicworks/stormwater/cipstormwater.asp>).
2. Information about individual stormwater capital improvement projects can be found at: <http://redmond.gov/insidecityhall/publicworks/stormwater/cipstormwater.asp>.
3. Redmond Municipal Code 13.20 includes the requirement for development projects to pay a sub-basin stormwater capital facilities charge in certain areas of the City. Those sub-basin CFC areas are shown on this map.
4. This map is periodically updated. Contact the City for the most recent version.
