REDMOND FIRE DEPARTMENT FEES

E. Penalties, Hourly Rates and Other Fees

1. Penalties:

Penalties shall conform to the City of Redmond Enforcement Regulations. The following shall apply.

- Fees shall be doubled for work begun without a valid permit for the first infraction in one year.
- Fees shall be five times original fees for work done without a permit for the second and each subsequent infraction in one year.
- Work done without a permit may also result in stop work orders or other actions or remedies. Actions may include the loss of the applicant’s business license.

2. Hourly Rates - New and Existing Construction:

Plan Reviews:

One submittal will be processed under the initial permit, review and inspection fees. An hourly rate of \$125.69* per hour will be charged for additional review time for revisions that have already been plan reviewed.

Inspections:

The original permit, review and inspection fee covers only the following activity by the Fire Department:

- a. One inspection and one re-inspection to verify compliance for each inspection type.
- b. Additional inspections for the same inspection type will be charged in accordance with the following;

2nd Re-inspection	\$100.00*
3rd and subsequent Re-inspections	\$250.00*

Overtime Rates:

The hourly rate for review or inspection outside normal business hours (when available) and that is requested in writing shall be charged \$188.54 per hour for a minimum of two hours.

Other Fees:

Technical Review (City Performed)	\$188.54*
Technical Review (Third Party Performed)**	Third Party Cost**

Permit Extension: Issued permits that are not expired may have the permit expiration date extended up to 180 days, at a fee equal to one half the prevailing hourly rate noted above. One permit extension is allowed during Plan Review and one after the permit is issued.

Expired permits: Permits shall automatically become invalid unless the authorized work commences within 180 days or if the work is suspended or abandoned for 180 days after work has commenced. Before work can recommence, a new permit shall first be obtained at a fee equal to one-half the new permit fee amount, provided no changes will be made in the original construction documents and provided that such expiration, suspension or abandonment has not exceeded 180 days.

*A 3% technology surcharge will be applied in addition to the listed fee as authorized by Ordinance No. 2090; extended by Resolution No. 1162 on December 3, 2002; revised by Resolution No. 1190 effective July 1, 2004.
**The technology surcharge fee will also be applied on outsourced third party costs.

REDMOND FIRE DEPARTMENT FEES

E. Penalties, Hourly Rates, and Other Fees (continued)

3. Special Review Processes:

Quick Start Permits: These permits shall be charged at the same rate as regular permits. Quick Start Permit fees are non-refundable and due at the time of permit submittal.

4. Other Fees:

Technical Review: The hourly rate of \$188.54*per hour shall be charged for the processing of extensive technical reviews associated with such involved issues as high piled storage, hazardous materials, or flammable liquids. These reviews may be outsourced for third party review and charged at third party cost rates.**

5. Existing Building and Occupancy Fire Inspections.

Re-inspection Fee: Fees will be charged for the following number of inspections required to verify compliance to a written inspection violation:

➤ Initial inspection	No Charge
➤ First re-inspection	No Charge
➤ Second re-inspection	No Charge
➤ Third re-inspection	\$100.00
➤ Fourth and subsequent re-inspections	\$250.00

6. Preventable Fire Alarm Fee Schedule:

The following schedule establishes the fees that are associated with the Redmond Fire Code's Preventable Fire Alarm section RMC 15.06.18:

- a) The fee shall be the hourly rate of one Pumper Truck and three Fire Suppression personnel found in Table F of this fee schedule.
- Preventable Fire Alarm Fee: \$384.87/hr.
- b) An hourly charge shall apply for each preventable alarm requiring a fee, of not less than one hour.
- c) Problematic systems, as specified in RMC 15.06, may not qualify for fee relief and may be subject to additional fees.
- d) Failure to provide an approved and required Fire Watch, as specified in RMC 15.06.18 will result in a fee of not less than that noted in (a) above.

*A 3% technology surcharge will be applied in addition to the listed fee as authorized by Ordinance No. 2090; extended by Resolution No. 1162 on December 3, 2002; revised by Resolution No. 1190 effective July 1, 2004.

**The technology surcharge fee will also be applied on outsourced third party costs.

REDMOND FIRE DEPARTMENT FEES

F. Administrative and Suppression Fees:

1. Arson or Negligence Incidents: \$79.26/hr.

This hourly fee is to be used for recovering department personnel costs related to incidents caused from arson or incidents caused by negligence of an individual.

2. Aid Car Standby: \$93.90/hr.

This hourly fee is to be used at times when a fire department aid car is to be staffed by EMT who are not on duty. The fee is to cover the personnel costs associated with the activity. No fee would be charged for events officially sponsored in part or wholly by the City of Redmond.

3. Special Service – Hazardous Waste and Other Cleanup: \$79.26/hr.

This hourly fee provides for recovering department personnel costs related to hazardous materials incidents. In addition, this section provides for the ability to collect reimbursement for equipment or apparatus contaminated, damaged, destroyed, or lost while providing service. Also, special items, supplies, or cost of services may be reimbursed from companies or agencies responsible for the incident related to hazardous material, hazardous waste, or similar incidents.

REDMOND FIRE DEPARTMENT FEES

Section G.

Administrative Guidelines for Fire Code Operational and Installation Permits; Re-inspection Fees; and Preventable Fire Alarm Fees.

1. Annual operational permits will be issued for one year (12 months) based upon the first day of the month in which the permit became required.
2. The annual maximum fees per facility or company are based upon the calendar year.
3. Additional annual operational permits may be prorated to correspond with an existing permit's annual renewal date. The pro-ration shall be based upon the number of days remaining on the existing permit divided by 365 days, multiplied by the additional fee required.
4. City of Redmond sponsored events requiring Operational permits shall be issued permits at no cost unless the City of Redmond has hired vendors or contractors to provide such services for which the vendors or contractors directly profit. In such cases, the vendor or contractor shall obtain and pay fees for required permits.
5. City of Redmond facilities requiring Operational permits shall be issued permits at no cost unless the City of Redmond has leased or rented that portion of the facility requiring the permit to another organization. In such cases, the lessee or renter shall obtain and pay fees for required permits.
6. Non-profit organizations designated as an IRS 501 (c) (3) organization shall be issued Operational permits at no cost.
7. The Fire Code Official shall have the authority to resolve disputes related to the assessment of all Fire Department User Fees.
8. The Fire Code Official (FCO) shall have administrative authority to adjust the fee to be applied to any individual operational or installation permit where, in the professional opinion of the FCO, the specific circumstances of the use do not well fit the level description found in this fee schedule or where an adjusted fee is part of the resolution of a dispute regarding the application or administration of this fee schedule. The adjustment to be made shall be limited to no more than 50% above or below the fee set forth in this fee schedule.
9. The installation permit will serve as the operational permit for a period of up to one year from the last day of the month in which the installation permit became required.
10. Public School Districts shall be issued Place of Assembly Operational permits at no cost.

*A 3% technology surcharge will be applied in addition to the listed fee as authorized by Ordinance No. 2090; extended by Resolution No. 1162 on December 3, 2002; revised by Resolution No. 1190 effective July 1, 2004.
